

Employee Acceptable Use Policy (AUP)

This Acceptable Use Policy provides simple guidelines for all employees using hospital technology, systems, and data.

1. Purpose

To ensure safe, secure, and responsible use of hospital IT resources, including computers, email, internet, mobile devices, and patient information systems.

2. Acceptable Use

- Use hospital systems only for authorized work activities.
- Protect patient and staff information at all times.
- Use strong passwords and keep them confidential.
- Immediately report suspected security incidents.
- Access only the systems and information you are authorized to use.
- Lock your device when not in use.

3. Prohibited Use

- Sharing patient data without authorization.
- Installing unauthorized software or apps.
- Using hospital devices for illegal or harmful activities.
- Attempting to bypass security controls.
- Connecting personal storage devices without approval.

4. Email & Internet

- Use email responsibly and avoid opening suspicious links.
- Do not download files from untrusted websites.
- Do not send confidential information without encryption.

5. Mobile Devices

- Enable screen locks and do not share devices.
- Report lost or stolen devices immediately.

6. Physical Security

- Keep work areas secure.
- Do not allow tailgating into restricted zones.

7. Compliance

Failure to follow this policy may result in disciplinary action.

By using hospital systems, you agree to follow this policy and help protect patient data and organizational security.
